# trompe l'oeil

## A new triumph for the Inhouse Design Company

Inhouse Design is delighted to show you work recently completed in this fabulous Highgate house, by its team of paint specialists using traditional methods of Italian Fresco painting – this ceiling piece is literally a work of art. Trompe L'Oeil which actually means 'trick of the eye' does exactly that – if you want a wall turned into a panoramic view over the Indian Ocean complete with balustrades and balcony, or maybe the Sistine Chapel in your boudoir – it can be done!

No job is too small – even the 16th century great master Raphael painted Trompe L'Oeil in his clients' sculleries, creating magical illusions. For more details contact Kate Jones, Inhouse Design; 0181 444 9106.

Pictured here are Inhouse Design's masters of Trompe L'Oeil – Marco Napoletano and Emanuela Multari.
